

Md Javed Alam

Vadodara, Gujarat javedalam1731@gmail.com +91 7654865117 +91 9153219764 [LinkedIn](#) [GitHub](#)

Professional Summary

Computer Science undergraduate with hands-on experience building full-stack web applications using React.js, Node.js, and Express.js, and integrating AI agents with large language model APIs (Gemini AI). Skilled in developing REST APIs, writing clean and maintainable JavaScript (ES6+) code, and managing relational and NoSQL databases. Strong problem-solving ability and proven teamwork through open-source contribution and hackathons, with a portfolio of independently shipped projects.

Work Experience

AI Trainer (Prompt Engineer) — Handshake AI (Remote) Aug 2026 – Present

- Write and evaluate prompts and model responses as part of an AI training and data-quality program, following structured quality and review processes.
- Consistently deliver tasks that meet defined quality benchmarks, contributing to datasets used in AI model development.

Open Source Contributor — Braidpool (Web3 Platform) Aug 2025 – Present

- Resolved **10+** frontend and UI-related issues using React and JavaScript, improving interface consistency and usability.
- Collaborated with a distributed team using Git/GitHub, submitting and merging multiple pull requests into the production codebase, following clean and maintainable coding practices.

Technical Skills

Frontend: React.js, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, Authentication & Authorization

AI & LLM Integration: Gemini AI, AI-Agent Design, Prompt Engineering, LLM API Integration

Databases: MySQL, MongoDB, SQL

Languages: JavaScript, Python, Java, C++, SQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOPs), DBMS, Operating Systems, Computer Networks, Problem Solving

Tools: Git, GitHub, Docker, Postman, AWS (Basics), VS Code

Projects

GenAI-Powered Interview Preparation Platform, MERN Stack, Firebase — [GitHub](#)

- Built and integrated RESTful APIs for an AI-powered interview preparation platform with LLM-driven, resume-based question generation, reducing manual preparation time by **70%**.
- Implemented Firebase-authenticated interview simulations, increasing user engagement by **45%**.

Resort Booking Web App, MERN Stack — [GitHub](#)

- Developed a full-stack web application using React, Node.js/Express, with authentication and role-based access control, reducing manual booking effort by **60%**.
- Designed and integrated scalable REST APIs and optimized MongoDB/SQL database schemas, improving query performance by **35%**.

AI Virtual Assistant, MERN Stack, Gemini AI, JWT — [GitHub](#)

- Built a Node.js/Express backend integrating Gemini AI (LLM) and the Web Speech API to power an AI agent, achieving sub-**2s** response latency.
- Implemented JWT authentication and third-party API integration (Cloudinary), improving personalization flexibility by **40%**.

Education

B.Tech in Computer Science — Parul University CGPA: 7.87 2023 – 2027

Achievements

- Solved 500+ Data Structures and Algorithms problems in Java/Python/C++, strengthening analytical and logical thinking.
- Reached the **Finals** of the **Odoo x Parul University Hackathon**, competing among top shortlisted teams.

Certifications

- Machine Learning with Python — [SimpliLearn] (June 2026)
- Spring Boot for REST API Development — Parul University (July 2025)
- UX Masterclass with Figma — Parul University (March 2025)
